All NaturalÂ and People, Plant and Pet Safe™

Â

Protect your landscaping investment from **moles, voles, gophers** and other digging animals with ScootÂ® Mole Repellent. It's possible to conquer these destructive invaders with our **all natural, 100% biodegradable, earth friendly, castor oil and garlic oil formula**. Adding the garlic oil is what makes our ScootÂ® Mole Repellent multi-critter effective! The animals dislike the taste and smell of formula and move on to untreated territory. Our 32 oz., easy to use hose end applicator bottle **treats 10,000 square feet**. One treatment last up to 90 days!

Â

ScootÂ® Mole Time Release Granules are made with the same active ingredients as our ScootÂ® Mole Liquid Repellent. Our ScootÂ® Mole Granular product is easy to use with most any type of broadcast or drop spreader. What makes our granular repellent unique is its **time release action**. The varying sized granules breakdown at different rates releasing fresh scents of castor and garlic oils that last up to 90 days. **Non-toxic, Green, and 100% natural**, ScootÂ® Mole Granular, safely and effectively gets rid of moles, voles, gophers, rabbits, chipmunks, skunks, and other burrowing animals. **Our 10 lb. bag covers 10,000 Sq. Ft.** Our advanced formula and coverage capabilities could quite possibly be the best value on the market!

Â
